

Selection Central Data Augmenter

Getting Started with Selection Central Data Augmenter (DA)

In this micro-learning, you'll learn how to effectively use the **Data Augmenter *edit*** feature within **Selection Central** to manage **PT/GL attribute** update requests from Brand Registry Sellers.

Note: This Selection Central feature becomes available only after completing prerequisite SOP steps. It represents an expansion of your basic Selection Central capabilities.

Total course duration: 10 minutes

Resources

Use this learning experience along with the following SOP to understand how to follow the steps.

Explore the new widget by selecting the + sign.

Step 1: —

Access [Selection Central](#) & select **Amazon**

Step 2: —

Select **Amazon Retail SMO**, then **Select Account**

Note: The step where you choose Amazon (step 1) may not always appear. If the user has already selected Amazon in **Selection Central** during a previous session, the system will remember their choice, and this step will be skipped automatically.

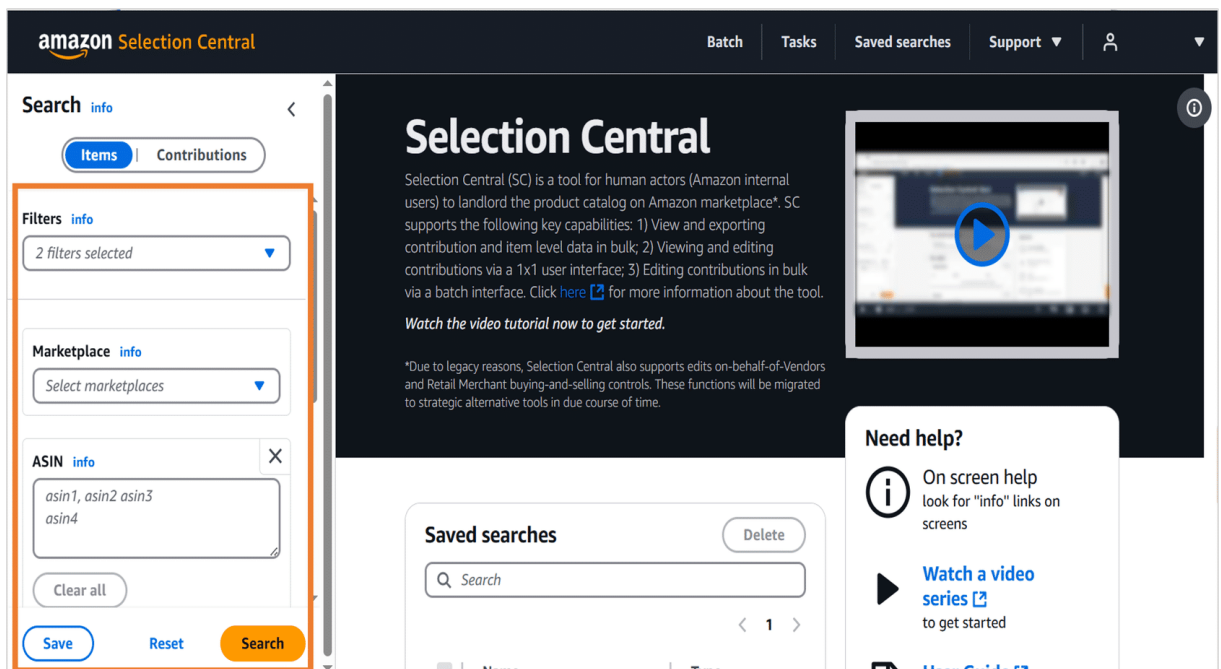

Select an Account

Amazon Retail SMO

Select Account

Step 3: —

Select the desired marketplace, enter the ASIN(s), update the display columns field if needed and select **Search**.

Step 4: —

Select **Add/edit attributes**

Key Takeaways:

- **SOP-Guided Process:** Only follow these steps when explicitly directed by your SOP.
- **Advanced Workflow:** You'll typically encounter these actions after completing several prerequisite tasks.

- **Evolving Procedures:** Additional SOPs will incorporate these steps as updates roll out.
- **Expanded Toolkit:** This lesson previews advanced Selection Central functions to enhance your future workflow.

Remember: This micro-learning provides an overview of capabilities you'll access at the appropriate stage in your work. Always refer to your current SOPs for specific guidance.

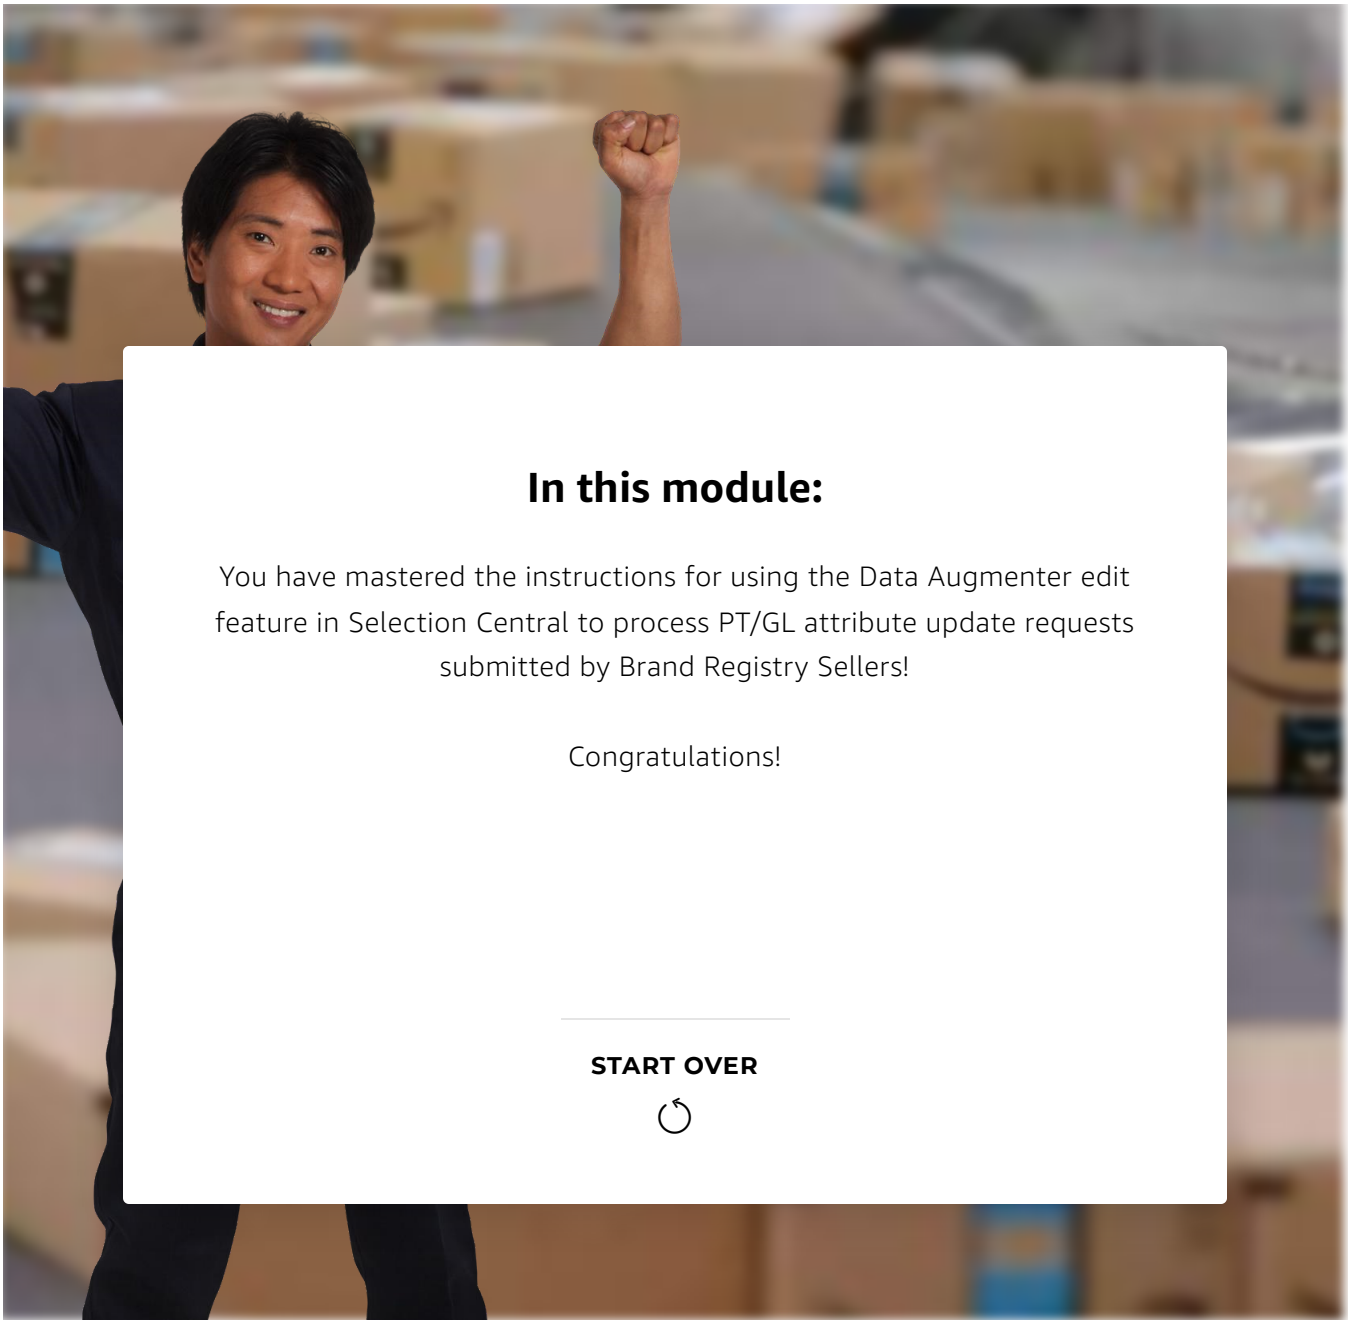

You have successfully completed Selection Central Data Augmenter module!

Remember, the Selling Partner's experience bar is our guide to build and maintain trust with our Selling Partners.
